

Homework: Markdown

PLPA-5820 (Spring 2025)

Gabriel A. A. Silva

2025-02-26

Notes

I was already familiar with R Markdown.

Some things that were new were about the `variant: gfm` option for Markdown documents, which I didn't know about. Also, the `fs` package was new to me, I am used to creating file structures with the `tree` command in the terminal.
